

Dream Check Lab Feedback

1. Product – Who are You

[Download CV](#)

2. Price – What you did

Achievement 1:

You described your task very thoroughly and precise. To make your achievement more impressive, you could focus a bit more on the challenges you had to overcome (e.g. communicating with external - maybe remotely - customers; give data about the size of the team ...) acting by influence always is a very good point

Achievement 2:

Mention time frame for delivery; scope of coordinative work; try to describe more impressively what your results where;

Achievement 3:

This achievement seems to me a very interesting one as there are international issues; seems you had a narrow time frame; Concerning all of your examples for achievements, try to focus to different of your skills in any example;

3. Place – What you can do

for skills you have good points; weaknesses are still a bit "weak"; in addition I would like to see some examples where your "weaknesses" were influencing your results in negative way (we may talk about that in our personal session)

4. Promotion – Your USP

Generally good; try to find three to five precise statements to support your USP (areas you could look at are your practical knowledge; management skills; leadership; how you work ...) Concerning your cv: I have edited your document according to requirements we have in Germany; I edited your last job accordingly; you should try to edit the rest of the document using this part as a template
